

BENEFITS

Maintain Security

Evidence Control for Law Enforcement uses Dynamics SL's standard security features, so access can be limited to specified users.

Key Features

Evidence Data can be pulled from other systems or entered directly.

Print evidence summary/ detail sheets with bar codes to attach to bins for individual cases.

Track Evidence Location. Sign out evidence, track it and purge it when no longer needed.

Evidence search screen, query screen and reports.

Scan items in a box and compare it to system data for physical inventory/audit.

Audit Reports, Case Reports and Tracking Reports available.

Evidence Control

Improve evidence tracking for your business
Specifically for LAW ENFORCEMENT!

Evidence Control Module allows for easy management of evidence and evidence tracking through the system in Dynamics SL.

The screenshot shows the 'Evidence Control' software window. It features a search form with the following fields: Case #, Report Date/Time (with a 'To' field), Agency ORI (set to 'Sanford Police Department'), Report Type, Serial #, Brand, NCIC, Model, Description, Caliber, Location, Status (set to 'Case Evidence/Seized'), and Property Entered Date/Time (with a 'To' field). There is a checkbox for 'Where no location is assigned' and buttons for 'Search (F3)', 'Clear (F8)', and 'Close (Esc)'. The bottom status bar shows 'ASC', 'SYSADMIN', and '6/2/2005'.

BAR CODE SCANNER

Memory scanners are rugged high performance devices that minimize fatigue. They collect data while freely roaming for up to 12 hours. To download, simply place scanner in cradle connected to host.
