

BENEFITS

Manage Bank Accounts effectively

PSS MICR Check is a useful utility for entering your Company Bank information so you can print checks on plain check paper right from Dynamics SL.

Put your information to work

Using the MICR font and magnetic toner in your laser printer, print the Bank Account information and codes on Accounts Payable checks. You can also print your company Logo and a signature.

Save Time and Money

Saves you the cost of pre-printed checks and is useful if you have several different banks that you print checks from. Simply change the Bank code prior to printing your checks instead of changing the check stock in your printer.

Maintain security

MICR Check module uses Dynamics Standard Security to limit access to viewers.
