

## BENEFITS

### Manage more effectively

Finally! We've created a utility that will allow you to track access (and attempted access) to any Dynamics SL Data Entry screen.

### Maintain security

Module Monitor uses Dynamics™ SL's standard security features, so access can be limited to specified users.

### Put your information to work

Set up is simple! Select which screens you want to apply your customization to. As users access your selected screens, entries are made in our access tracking table!

### Find the information you need

Track who accesses what screens on what dates (including Payroll), see who changed your chart of accounts and see who changed your Vendor Master File and Employee Files.

## Module Monitor

Improve security for your business by tracking screen access from within Dynamics SL.

**Module Monitor** simplifies the process of, tracking and viewing screen access information.

You may filter the data according to any combination of the following items:

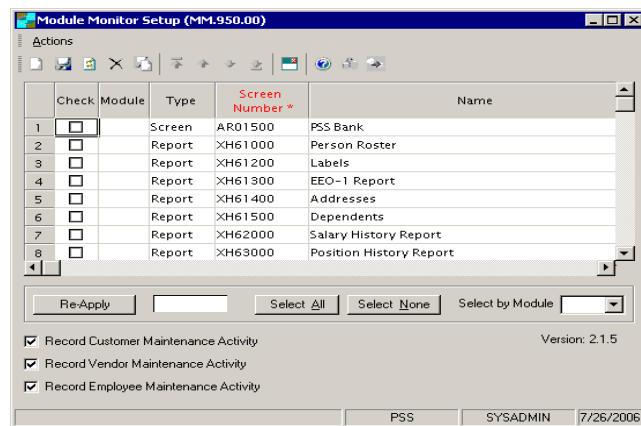

Date	Company Id	Screen Nbr	User	Computer Name	Database Name
10/4/2006					
10/4/2006					
10/17/2006					
10/17/2006					
10/17/2006					
10/17/2006					
10/17/2006					
10/17/2006					
10/17/2006					
10/17/2006					
10/17/2006					
10/17/2006					
10/17/2006					
10/17/2006
