

## BENEFITS

### Manage more effectively

Property Management allows you to Handle property management and accounting on an unlimited number of properties from with Dynamics SL.

### Save Time and Money

With Property Management built into Dynamics SL, you eliminate duplicate entry. Record property information, billing, and maintenance all from with Dynamics SL.

### Put your information to work

Property Management tracks...

- Property & Buildings
- Units within Buildings
- Tenant/Owner data
- Rental/Fee information
- Rent/Fee Billing
- Work Orders

### Integrate Powerfully

Property Management is built with the same look and feel as Dynamics SL. It includes the powerful security features, customization and reporting capabilities Dynamics SL is famous for.

## Property Management

**Integrate Property Management and Accounting** by tracking Buildings, units, customer and rental information as well as rents, fees and work orders within Dynamics SL

### PROPERTY MANAGEMENT

**Track unlimited Buildings and Units as well as the Tenant Information**

### FEATURES OVERVIEW

#### Billing

Billing setup is easy with Fee Codes that let you setup unlimited fees by dates and building/units.

Increase fees by % and \$ amounts and have it apply to all applicable tenants.

#### Use Existing Reports

You can use existing Dynamics SL invoices and statements or modify them with Crystal Reports.

#### Work Orders

Allows you to track Work Request From Tenants.  
 Setup, Print and Track Work Orders through completion.  
 Check Status of a Work Order by assigned individuals using work order reports.

#### Record Information

Allows you to record Property Information, Billing, and Maintenance all from within Dynamics SL.

#### Track Information

Ability to track Property Building Codes, Unit Codes, Customer Units, Rental Information, Rents, Fees and Work Orders.
