

## BENEFITS

### Great search capacities

Search for items in Dynamics SL using multiple and partial search criteria in an easy to use interface. Results are displayed in view grid format with drill down, print and export capabilities.

### Put your information to work

Easily access and make changes to your data. Search for documents and transactions while using the six operators available for refining your search.

### Find the information you need

Rainbow Searches are available for the following modules: Accounts Payable, Accounts Receivable, Bill of Materials, Fixed Assets, General Ledger, Inventory, Project Controller, Purchasing/PO Requisitions, and Work Order.

### Utilize the power of Operations

Empower your business by using the power of the Operators in the Search screen. Fields will change colors based on the Operator used in that field. Results are displayed in the Search Results screen, and can either be printed or viewed using the appropriate Dynamics SL screen using Drill down.

## Rainbow Search

Improve efficiency for your business by tracking, analyzing and utilizing search criteria from within Dynamics SL.

**Rainbow Search** simplifies the process of entering, searching, and viewing account information in different modules.

**Search Criteria** on multiple fields at one time.
