

BENEFITS

Manage SDN files more effectively

Terrorist Check uses the SDN List Import and Check Screen to import the Federal Government SDN (Specially Designated Nationals and Blocked Persons) List, check for new additions to this list and print a report of any SDN's found.

Import your information easily

Simply enter the SDN file that was downloaded from the US Government website. After the SDN file has been selected, click Import to import the file into the SDN System. The importing progress will show on the screen for easy processing.

Save time and money

Terrorist Check saves you from having to enter SDN files manually by granting access to the Federal Government into your system.

Maintain security

Terrorist Check uses Dynamics SL's standard security features, so access can be limited to specified users.
