

BENEFITS

Manage time more effectively

Time Entry and Approval in Microsoft Dynamics SL. A suite of data entry and utility screens designed to track your employee's time using the Microsoft Dynamics SL environment.

Maintain security

Time Track module uses Dynamics Standard Security to limit access to viewers.

Put your information to work

Eliminate duplicate data entry of time records by employees. Enter it once and have it automatically update Project Controller and Payroll. Review and approve an employees time for any period online! Billing module allows you to bill clients for time spend and have invoices post to Accounts Receivable.

Key Features

Users can enter hours spent on projects or Administrative duties and Holidays.

Users can clock in and out, or enter time directly.

Time entries can be linked to an update Project Controller.

Time entry data can be approved by Supervisors.
