

## BENEFITS

### Manage billing more effectively

Quickly and accurately set up and track utility billing information for your clients, with minimal effort using multiple features and powerful reports.

### Save time and money

Record Power and Water Meter readings, garbage, sewage, taxes and much more all in one system. Integrates seamlessly with the accounting system to reduce data entry.

### Put your information to work

Easily make changes to your meter readings and billing as well as capture necessary data for reporting purposes while performing billing functions.

### Find the information you need

Access the data you need with an intuitive graphical user interface exactly like the standard Dynamics SL interface. Print reports using Crystal reports and the standard Dynamics SL report interface.

### Make Billing easy

Import meter readings, identify Discrepancies, print reports and complete billing all from one screen.

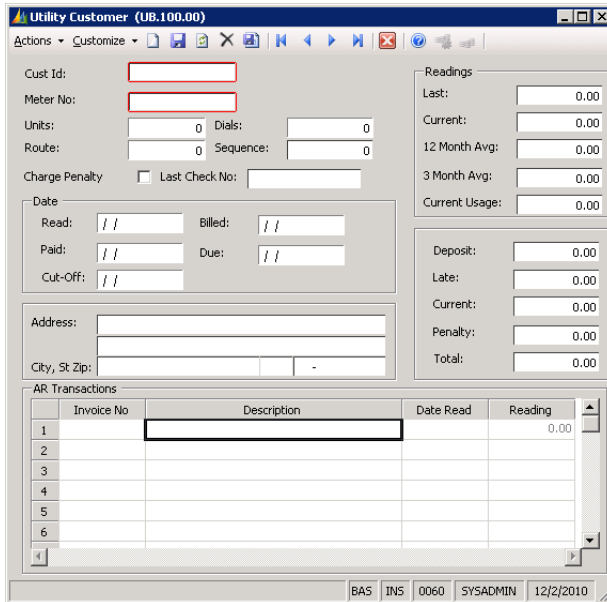

### Integrate powerfully

Empower your business by combining Utility Billing with other Microsoft Dynamics modules, ensuring accuracy while reducing redundant data entry.

## Utility Billing

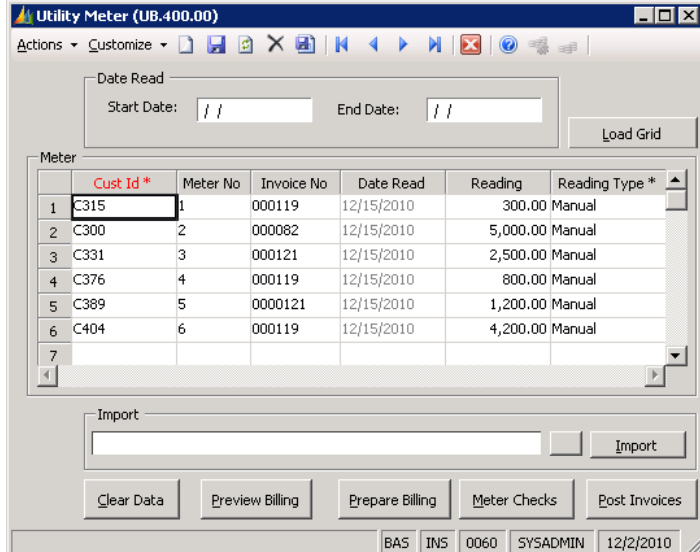

**Improve financial management** by integrating your Utility Billing from within Dynamics SL.

**UTILITY BILLING** simplifies the process of creating, viewing and editing Utility Billing and customer information

Invoice No.	Description	Date Read	Reading
1			0.00
2			
3			
4			
5			
6			

**Import Meter Readings** or enter them manually for utility billing.

Cust Id *	Meter No	Invoice No	Date Read	Reading	Reading Type *
C315	1	000119	12/15/2010	300.00	Manual
C300	2	000082	12/15/2010	5,000.00	Manual
C331	3	000121	12/15/2010	2,500.00	Manual
C376	4	000119	12/15/2010	800.00	Manual
C389	5	0000121	12/15/2010	1,200.00	Manual
C404	6	000119	12/15/2010	4,200.00	Manual

**Verify and Process Billing all from one screen!**

Easy Billing Setup	Create and manage an unlimited number of Billing fee codes, with minimums, surcharges and rates..
Customer Information	Track and view fees and information for customers including meter information, meter readings, detailed payment history, cut-offs, penalties and more.
Meter Readings	Import meter readings from outside sources or key them in manually. Easy to use graphical interface makes pulling in meter data easy.
Track Discrepancies	Discrepancy reports show you customers with missing readings, or those under or over their average usage. Helps to track down meter malfunctions and theft!
Billing & Payments	Billing Hub allows you to import your data, identify and correct discrepancies, preview, print and post billings all from one easy to use screen. Easily apply payments from customers to both Utility, Tax and License fees all in one screen.
Penalties and Cutoffs	Assess late penalties to clients who have paid late. Special options for exempting clients if necessary to make your job easier. Cut-off reports by route to allow your employees to know who needs to be turned off..
Work Orders	Work orders to allow for service requests from clients to be tracked including status reports.
Reporting Capabilities	Reports include Meter History, Billing History or Payment History for clients. Track Deposits by client as well as Receivables aging. Reports for daily payment receipts and invoices and many more.
Integration	Automatically updates Receivables/General Ledger with invoices, fees and payments. Integrates with Bank Reconciliation for easy reconciliation of payments.
