

Confidence

BENEFITS

• Empower Your People

Microsoft Dynamics SL 7.0 provides a new menu interface, based on design themes from products such as Microsoft Outlook that are familiar to your people. New role-tailored menus make it easy for people to focus on functions they need to do their job more efficiently. The new custom menu creation process provides a way to create custom step-by-step menus that list how to complete a process.

• Access Data Easily

Managers can gain a better understanding of what is happening in the business with enhanced analysis capability and improved reporting ability. Each person can also have custom home pages of relevant, priority information that is unique to their job and available at their fingertips. Administrators will find it easy to deploy menu configurations to groups of people, or provide individuals the menu functions that they need.

• A Foundation for the Future

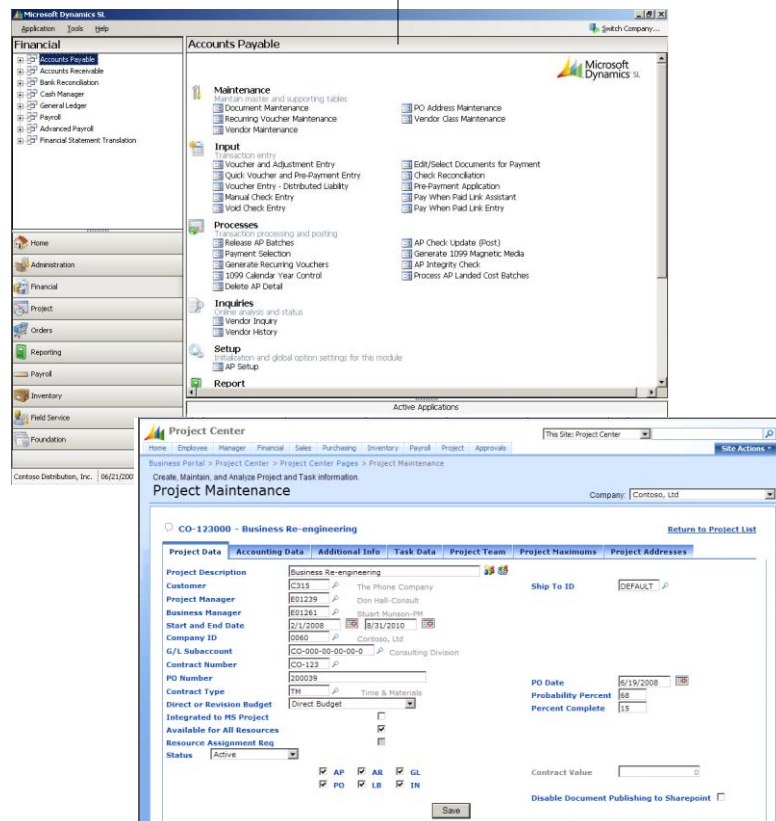

Microsoft Dynamics SL 7.0 has been upgraded to run on the latest version of Visual Studio 2005 (Visual Basic), making it a native .NET application and providing new interfaces to products like SQL Reporting Services. With access to a larger, vibrant developer ecosystem as well as a broad range of available .NET framework-based solutions people who use Microsoft Dynamics SL 7.0 can readily increase their development productivity. With extended product support, and the ability to upgrade customizations, reports and ISV products, these enhancements help you build a foundation for the future.

Microsoft Dynamics™ SL 7.0

The Basis for a New Era of Growth, Innovation, and Role-Tailored Usability

Microsoft Dynamics SL is an adaptable business management solution that works like and with familiar Microsoft software to help automate the transactions of project-, service-, and distribution-driven businesses, empowers people to work more effectively together to fuel business productivity, and provides managers insights to help monitor and grow their company with confident decision making.

Navigate the new menu interface with ease as Microsoft Dynamics SL provides familiar menu trees that work like other Microsoft products and user-specific home pages.

Access to Microsoft Dynamics SL Project Maintenance functions are available securely in a web browser from remote locations 24x7 through Business Portal.

MICROSOFT DYNAMICS:

Microsoft Dynamics SL 7.0 Is:

Is familiar to your people...

Microsoft Dynamics works like and with other Microsoft products you and your people are familiar with, helping reduce the time required to learn how to use it, and freeing up time to focus on what matters most.

Solutions that are easier to use, learn and deploy to your people

Microsoft Dynamics SL 7.0 is built for improved efficiency with configurable menus and tools that are familiar to your people. Microsoft Dynamics SL 7.0 offers:

- New, Microsoft Office 2007-like menu interface
- Configurable, role-tailored menus and home pages
- Improved text editing

Fits with your systems...

Microsoft Dynamics works the way your current technology works so it fits easily into your systems, helping to maximize your investment in Microsoft technology.

A foundation from which you can build your future

Flexible, easy to implement, secure, and built on technology supported by thousands of developers worldwide, Microsoft Dynamics SL 7.0 provides:

- Compatibility with Windows Vista, Office 2007 and Visual Studio 2005
- More information and processes available through useful web-based portals
- Compatibility and upgradeability of prior customizations
- Integrated Windows Authentication for easier application access management

Fuels your business productivity...

Microsoft Dynamics helps fuel the productivity of your business by automating your business-critical operations and adapting to fit your type of business, ensuring the most relevant insight.

Powerful functionality with which you can run and improve your business

New features and enhancements to fuel your business productivity with Microsoft Dynamics SL include:

- Quick Send invoices and purchase orders via email or fax
- Pay-When-Paid
- Ability to access and manage more project information remotely and securely to better enable your mobile people
- Expanded project multi-currency support
- Field service enhancements for trade contractors
- Expanded data fields

Enables confident decision making...

Microsoft Dynamics helps you respond rapidly to the changing demands of your business, providing you with more complete insight across your organization so you and your people can make timely and informed decisions with increased confidence.

Gain insight from your business activities so people can measure, analyze and plan

Microsoft Dynamics SL 7.0 allows better insight into your business with reporting tools that empower your people to make better decisions and analyze business transactions, with:

- Business Analytics for Microsoft Dynamics SL delivers tactical, operational, and strategic reporting
- Pre-built analysis reports for many roles in your company so everyone is working from the same information, presented in views unique to their individual business models
- SQL Server Reporting Services built in helps you distribute information to your people
- Support for the latest capabilities of FRx Reporter
